

HELLO, FLEMINGSBURG.

You Can Hear a Watch Tick Over the Telephone Line Since its Improvements.

Messrs. H. G. Wells and Dan Mitchell, proprietors of the telephone line between this city, Mayslick, Helena Station, Helena and Flemingsburg, have completed some big improvements and the line is now in better condition than ever before.

By far the most important improvement was the substitution at all the stations on the line of the Fitzsimmons patent box, for the old Bell box. The new box is the one that will be used in the exchange soon to be established in this city. It is so arranged that by pressing a button, when calling up a station, connections with all other stations is shut off. Under the old system, a person at any station on the line could hear every message that passed over the wire, whether it was intended for him or not. The Fitzsimmons box has a device or arrangement by which this is rendered impossible, the station to which the message is sent being the only one that can hear it.

In addition to these advantages or improvements of the new system, it is a much easier matter to talk through the Fitzsimmons box, as it conveys a sound much more clearly and distinctly than the Bell system. While at Mayslick a few days ago Mr. Wells placed his watch on the box and the operator at Flemingsburg heard it ticking almost as distinctly as if the watch was against his ear.

Mr. Wells is General Manager of the line, and the local office is at the office of Wells & Anderson's livery stable on Market street. All messages will receive prompt attention. The points reached by the line are the places already named.

Catholic Education in Kentucky.

The Catholic population of Kentucky is but a small percentage of the total, not 10 per cent. Still it is surprising to find that 75 per cent. of all higher education is given in Catholic institutions, academies and colleges. St. Mary's in Marion County was founded in 1821, and has quite a history. The Fathers of the Resurrection have made it the leading Catholic College of the State. During the present summer extensive improvements have been made to the buildings, a new steam heating plant, a system of water-works and a gymnasium being in course of construction. The Catholic colleges of the South have the advantage of an agreeable climate in winter and offer first-class education at lower figures than institutions North and East. The South is improving in every respect.

General Gordon's Lecture.

Mention was made a few days ago that General John B. Gordon, of Georgia, will deliver his celebrated lecture, "The Last Days of the Confederacy" here on September 6th. General John C. Underwood writes: "I have heard the lecture twice and would like to hear it again. Those who miss the chance of hearing him on this occasion will certainly regret it. The General is the beau ideal of Southern chivalry, as friend, soldier and statesman; and his great lecture adds to the debt which Southern people owe him. Your good citizens will be the richer by turning out en masse to hear him."

Stable and Corn Crib Burned.

A stable, corn crib and ice house at the farm of Mr. H. Duke Watson, a few miles out on the Fleming pike, were destroyed by fire about 10 o'clock last night, together with the contents.

The crib contained about 150 bushels of old corn. The loss amounts to several hundred dollars, and there was no insurance. The origin of the fire has not been learned.

The Coming Camp Fire.

The members of Joseph Heiser Post No. 13, G. A. R., are anticipating a big time at the camp fire September 20th, 21st and 22nd, at Dieterich's Grove. They will leave nothing undone to make it enjoyable for all who attend. The prizes which they offer to the parties selling the largest number of tickets can now be seen at Crawford & Cady's grocery.

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

FAILED TO SHOW UP.

The "All-Professionals" Didn't Keep Their Engagement—Latest Base Ball Gossip.

The "All-Professionals" of Cincinnati ought to change their name. Professional ball-players don't make engagements and then fail to keep them.

Local lovers of the national sport were badly disappointed Friday afternoon. The Cincinnati team just referred to had arranged for two games with the Regulars, but they failed to show up. The Regulars had a practice game in the afternoon with a picked nine, the score standing 16 to 2.

Some important changes have been made in the local team. Sparks and Nie were released last evening, and it was decided to get a new pitcher and catcher to take their places, and also a good third baseman. The new catcher will likely be Taylor, of Hamilton, O., a friend of Wellner, Maysville's crack pitcher. An effort will be made to secure Carney Flynn, who twirled for the Cincinnati League team for a short time this season. For third baseman, the managers have their eyes on two or three players who will be given a trial shortly.

There were also some important changes made last evening in the management of the club. It has been placed on a more substantial and business-like basis than ever before. Under the new order of things, Maysville is assured of a first-class team in every respect.

The Lexington team, one of the fastest in Central Kentucky, will be here next Thursday and Friday for two games.

The Germantown team is anxious to tackle the Regulars, and they will likely be accommodated next Tuesday afternoon.

THE Kentucky Union railroad will probably be extended from Jackson, Breathitt County, to Pound Gap and on to connect with the N. and W. The value of this extension to the road will be incalculable. In the first place a through line will be established from the seacoast to Louisville and Chicago, which will be more direct by several hundred miles than any other line at present constructed.
